## **Benjamin Afton Appointed to National Wireless Safety Alliance Board of Governors**

### ***Afton to Fill One of Seats Reserved for Large General Contractor Sector of the Industry***

(Overland Park, Kansas) - The National Wireless Safety Alliance (NWSA) announced today that Benjamin Afton, Safety & Health Manager for the Telecom Business Line with Black & Veatch Corporation in Overland Park, Kansas has joined the organization's Board of Governors. Afton was appointed to fill one of the seats reserved for the Large General Contractor sector of the industry.

The NWSA is a national non-profit assessment and certification organization that has been established to provide thorough, independent assessments of knowledge and skills and provide verifiable worker certification in order to enhance safety, reduce workplace risk, improve quality, encourage training, and recognize the skilled professionals who work on towers and other non-standard structures.

The NWSA Board of Governors consists of representatives from a broad cross-section of the industry and is tasked with developing policy and overseeing the activities of the various committees that will serve under their jurisdiction.

Since joining Black & Veatch, Benjamin Afton has worked in various B&V telecom markets on a variety of construction projects from wireless to wireline. He formerly managed the B&V west coast markets as a regional Safety Manager for the San Diego, Los Angeles, SF Bay Area, and Las Vegas markets before taking an assignment overseas for the Black & Veatch energy group in Mpumalanga, South Africa. Upon return from that project, Afton became the Regional Manager for the Midwest, primarily working on the AT&T Turf Project. Afton has currently transitioned to a new role of Business Line Manager for Telecom Operations within Black & Veatch, which is based in Overland Park, KS.

"I am honored to join the NWSA Board of Governors and look forward to utilizing my experience with Black & Veatch to bring national certification programs to workers in the telecom market," said Benjamin Afton.

“Benjamin Afton’s wide range of experiences are will serve us well in his position on the NWSA’s Board of Governors and we are excited to have him on board,” said Don Doty, President of the NWSA Board of Directors.

The NWSA organization is the result of collaborative efforts between a broad coalition of the industry’s leading subject matter experts, companies and stakeholders representing wireless carriers, broadcasters, tower owners/vertical realtors, OEM’s, turnkey management firms, small contractors, tower technicians, public safety entities and industry associations.

The NWSA’s Telecommunication Tower Technician I (TTTI) and Telecommunications Tower Technician II (TTTII) certification programs are slated to be launched in the marketplace on December 29, 2016 along with co-branded NCCCO Rigger and Signalperson Certification programs. These programs have the distinction of becoming the first assessment and certification offerings available to the wireless industry’s workforce through the NWSA.

Other assessment and certification programs the NWSA has under consideration for the future include Climber Certification, Antenna & Line Foreman, Tower (Stacking) Foreman, Structural Modifications Foreman, DAS Systems, Small Cell Systems, Broadcast Structures and Outside Plant/Fiber to the Home and Business.

Industry workers, companies and stakeholders are encouraged to visit the NWSA website at [www.nws-a.org](http://www.nws-a.org) to learn more about the organization.
