National Wireless Safety Alliance Unveils Website

(Stevensville, MD) - The National Wireless Safety Alliance (NWSA) today unveiled the organization's official informational website. The NWSA is a national non-profit assessment and certification organization whose mission statement is to provide thorough, independent assessments of knowledge and skills and provide verifiable worker certification in order to enhance safety, reduce workplace risk, improve quality, encourage training, and recognize the skilled professionals who work on towers and other non-standard structures.

The NWSA website was developed by Stevensville, Maryland based The Digital Architects, Inc. The Digital Architects, Inc., a nationally renowned website development/certification database management firm, possesses a diverse client base which includes other prominent national certification organizations.

“The NWSA is committed to providing timely and relevant updates to the industry as key benchmarks are achieved in the establishment of the organization. This website will be a valuable platform for stakeholders throughout the wireless industry to receive information on the NWSA,” said NWSA consultant Chuck Slagle, a former Sprint Environmental Health and Safety Executive.

Key features of the NWSA website include an *About* section that highlights the organization's origin, a *Frequently Asked Questions (FAQ's)* section which provides answers to common questions regarding the organization, a *Press Release* section which archives the NWSA's press releases and a *Speaker Request Form* which allows the industry an opportunity to request a NWSA representative to speak at an upcoming event. The NWSA website also includes breathtaking aerial photos of communication tower workers working on structures at elevated heights.

“We believe in the NWSA's mission of safety and quality and are excited to provide our expertise in website development and certification database management to the NWSA,” stated The Digital Architect's Inc. President Jeanmarie Richardson.

Wireless industry workers, companies and organizations are encouraged to view the NWSA website today by visiting www.nws-a.org.

The NWSA organization is the result of collaborative efforts between a broad coalition of the industry's leading subject matter experts, companies and stakeholders representing wireless carriers, tower owners, OEM's, turnkey management firms, small contractors, tower technicians and industry associations.
